

Activity 01

- Write Java programs to get the following outputs using Escape Sequences.

01) *

**

02) ABC Auto Repair Service Invoice

Parts	5000
Labor	2000
Sales Tax	1000

Total	8000

03) I am an undergraduate of 'Uva Wellassa University'.
My department is "Computer Science & Informatics".
My University was started in '2005'.

04) Escape Sequence	Description
\t	Inserts a tab in the text at this point.
\b	Inserts a backspace in the text at this point.
\n	Inserts a newline in the text at this point.
\r	Inserts a carriage return in the text at this point.
\f	Inserts a form feed in the text at this point.
\'	Inserts a single quote character in the text at this point.
\"	Inserts a double quote character in the text at this point.
\\	Inserts a backslash character in the text at this point.

05) A "quoted" String is
'much' better if you learn
the rules of "escape sequences."

"" represents an 'empty String'.
Don't forget to use \" instead of ".
' ' is not the same as ".

06)
